90-DAY BIT INSPECTIONS

Are you performing your 90-Day BIT Inspections?

Not all vehicles need to be registered with the BIT Program, but it is best to have someone look at your vehicle at least one time a year, if not every 90-days.

The Commercial Vehicle Safety Alliance (CVSA) has announced; "May 16-18 there will be an international Road check in Canada, Mexico and the U.S."

They will conduct inspections on commercial motor vehicles and drivers at weight/inspection stations, designated inspection areas and along roadways.

This year, inspectors will focus on anti-lock braking systems (ABS) and cargo securement to highlight the importance of those aspects of vehicle safety.

CARB'S OPACITY, OBD, HD I/M TESTING

Starting in January 2023, CARB rolled out their new emissions rules for Diesel vehicles.

Opacity testing is required on diesel vehicles over 14,000 lbs., which are 2019 and older.

Our techs are **certified** to perform testing on all vehicles.

Visit the CARB Website for more information:

Routine Maintenance

We all know the importance of changing our engine oil and filters on a routine basis.

Our facility is equipped with the oil and filters to make your oil change as quickly as possible. This includes **FULL SYNTHETIC AMSOIL**.

Take a break in our convenient break room while you wait, we are here to take care of you!

New Hires

We are proud to announce the hiring of our newest employee, Kirk Stevens.

Kirk has a long history with diesel trucks, and we are proud to have him on our team.
